Hi Elspeth, just letting you know (as per your email below) that NE have raised no objections to this application. Please let me know asap if you have any further comments as I need to aim to get a decision out by Friday 17 May.

Thanks very much.

Rob

Subject: NYM/2019/0254/NM

Hi Rob,

I have quickly scanned this application, and I can't see anything to concern me given it is much smaller than the previous design, however I would be grateful if you could let me know NEs response in due course and I will comment formally after.

Thanks

Elspeth

Dear Rob Smith

Planning consultation: Application for non material amendment to planning approval NYM/2017/0505/MEIA to allow revised design of telecommunications mast approved under NYM/2018/0589/NM

Location: Land at Woodsmith Mine (formerly Doves Nest Farm & Haxby Plantation), Sneatonthorpe (minehead); underneath 252 km² of the NYMNPA (winning & working of minerals); a corridor extending underground from the edge of the NP boundary to Wilton Complex (mineral transport system); Ladycross Plantation near Egton, Lockwood Beck Farm near Moorsholm, Tocketts Lythe, near Guisborough (intermediate shaft sites); site within the eastern limits of the Wilton Complex, Teeside (tunnel portal)

Thank you for your consultation on the above dated 18 March 2019.

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Natural England notes the proposed changes to the design of the telecommunications mast and is satisfied that it will not impact on the landscape character and special qualities of the North York Moors National Park. We note that the Scheme for Maintaining and Managing the Haxby and Belt Plantations (document ref. 40-SMP-WS-8323-PA-PL-00001) referred to in relation to the mitigation for this proposal is difficult to access however in this case, due to the minor nature of the changes, we are content without seeing the full details of the screening.

We would be happy to comment further should the need arise but if in the meantime you have any queries please do not hesitate to contact us.

For any queries relating to the specific advice in this letter please contact Merlin Ash at [redacted]. For any new consultations, or to provide further information on this consultation please send your correspondences to [redacted]

Yours sincerely

Merlin Ash
