

Members Update Sheet

Item 7 NYM/2019/0471/FL

Please note the addition of the following informative:

1. The applicant is requested to use their best endeavours to consider measures that can be taken to reduce the impacts on nearby residents from the additional traffic movements likely to be associated with the development.

Additional information from applicant's agent:

Prior to the Committee Meeting and in relation to the parking matters associated with the above application, the adjacent landowner has confirmed that he is willing to explore possibilities with the school to provide a solution to parking issues, allowing access to the field for delivery of the school classroom and to work with the school to explore feasibility for semi-permanent parking to the field, perhaps for staff and/or visitors.

Also, a point of clarification in the Officer's report, currently *only* the pre-school meet at the village hall. As a result of them wishing to relocate to the existing school, the reception and Year 1 class which are both currently at the school will be relocated to the purpose built classroom subject to the application.
