Details of the pre-application advice received:

The trees about the site do provide a landscaped setting for a small number of shepherds huts and given that these would be sited well back from the roadside such that they would not be widely visible, then I consider that the harm to the landscape of this part of the National Park would not be significant. The emerging Local Plan policies look to support new small scale tourism accommodation development where they lie within a settlement and can be screened by existing topography, buildings or well established vegetation which is in the applicant's control. In light of this I believe there may be some merit to your proposal.

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land? *

Yes

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact? (Please select only one) *
