

Members Update Sheet

Item 5 NYM/2019/0697/FL

Consultations

Others – Additional comments have been received from The Residents Group as follows:

The architect and agent for the original scheme has confirmed to them that no rear (north) elevation was submitted with the original application because no alterations were proposed to that elevation and that he was never instructed to incorporate any windows in the north facing roof of the development.

The distances to the neighbouring properties should have no bearing on the fact that these rooflights are unauthorised and a deliberate attempt to circumvent planning laws. The distance from the rooflights to the neighbour's garden where he spends a great deal of time is actually only 3 feet.

(Photographs have been submitted showing the neighbour's garden during the spring/summer months when it is well tended).
