Dear Kelsey

Thank you for your email.

We would like to confirm that the description of the development can be amended from 'proposed replacement of the doors' to what you recommend.

Please see the photo of a typical bannister rail, which was suggested by Clair. Our new bannister would be very similar to this.

Finally please could amend our existing application to include 'erection of an internal porch' as recommend by yourself.

Many thanks for your help and advice.

Christina

Dear Christina,

Many thanks for meeting with me yesterday. Further to our discussion I would be grateful if you could respond to this email confirming that you wish for the development description to be amended to remove the proposed replacement of the doors. The description would therefore read:

Listed Building Consent for installation of replacement window together with internal alterations.

I have also had a look through your application and cannot find the image of the proposed banister that you referred to on Monday. I would therefore be grateful if you could email that image through to me in order to illustrate the proposed design of the replacement banister.

Finally, as discussed, I have attached a couple images of the style of internal porch that would be considered acceptable within your property. If you wish to include the erection of an internal porch in your existing application for Listed Building Consent please let me know and I will ensure the development description is amended.

I would be grateful to receive confirmation that you are happy with the amended development description and the requested banister details at your earliest convenience.

Yours sincerely

K. Blain
