York house is a characterful property located in a prominent position. However, it is clear that it has been subject to internal modifications over the years which have negatively impacted upon that character internally. I raise not objections to the relocation of rooms and relocation on modern stud walls. I do feel like this is a missed opportunity to better reveal the significance of the building and reinstate more traditional materials, such a lime plaster. However, given the existing finishes I do not think the proposal will have a negative impact upon the building.
