

NOTES
 Do not scale from this Drawing.
 It is the Contractor's responsibility to check all governing dimensions with the Engineer and client and verify all dimensions on site before commencing any work or making any other drawings.
 This drawing to be read in conjunction with structural, mechanical and electrical drawings prepared by others and other relevant information and any discrepancies are to be reported to the Architect/Project Manager.
 Work and materials to be in accordance with the Building Regulations where appropriate and to comply with relevant British Standards. Materials to agree with Planning Conditions.
 This drawing is the copyright of Edwardson Associates Ltd and should not be reproduced in whole or in part without their written permission.

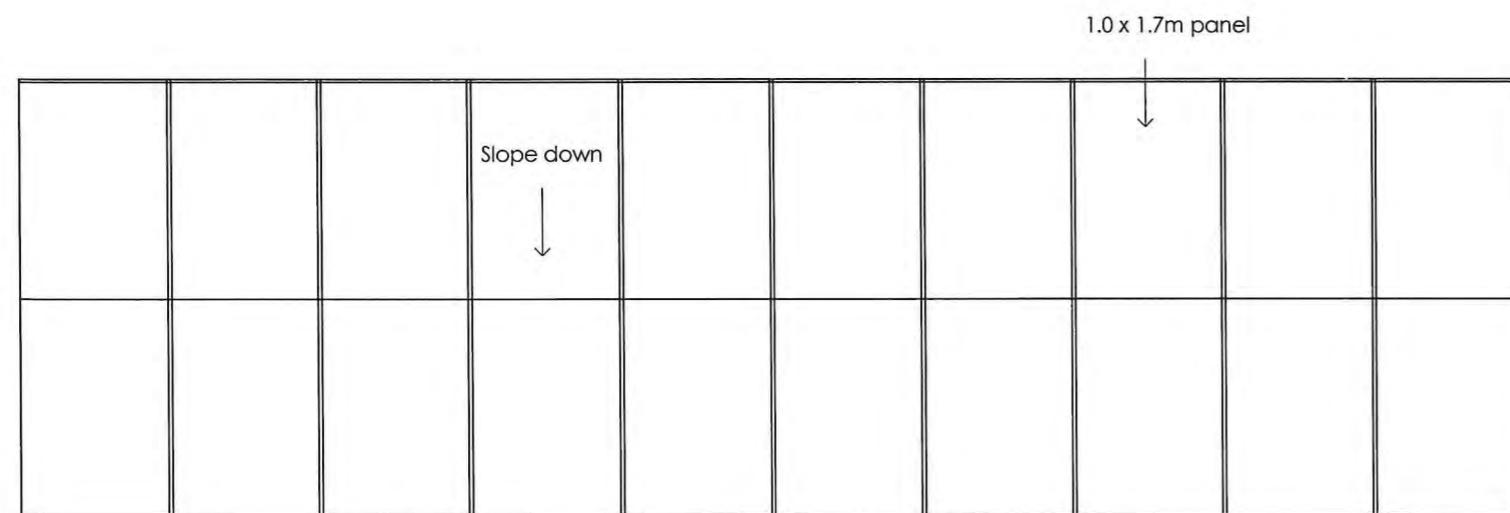

- NOTES**
1. The shed is to be constructed with a steel portal frame, set around remaining wall of former chicken shed.
 2. Wall to be clad with fibre cement wall panels, starting at minimum 0.4m above ground level (depending on terrain)
 3. Roof to be fibre cement roof sheeting to match existing roof with integrated skylight panels.
 4. Existing main highway access to have ramp removed and to have a min. 10 non-drag surface.
 5. Existing back Highway access to be re-instated and to have a min. 10 non-drag surface.
 6. Surface disposal to use existing site system (to be made good) and hence to go to existing site system of soak-aways.
 7. Foul water disposal - not applicable.
 8. Existing site service to be utilised.
 9. Additional hedge and tree screening planting to be indigenous species, including Hawthorn and Blackthorn.
 10. Proposed 50kw solar panel array to be located on south facing slope and enclosed with post and wire mesh fences to match existing fences on site.

Elevation

Section

Flat Plan

Array of 20 Panels 1.0 x 1.7m (5kw)

to be erected on site:
 2 banks of 5 arrays of 20 panels each = 50kw generated

Proposed ground mounted solar array of 2 no. banks of 5x 20 (no.) 1.0 x 1.7m (10 x 2 grid) solar PV modules in a portrait format. Panels to be mounted on a galvanised framework, orientated south at 30 degrees. Framework to specialist's details. Aluminium frame to be securely fastened to a concrete base.
