Hi Helen,

The removal of the lighting from the proposals alleviates my concerns relating to this application..

Many thanks

Elsbeth

NYM/2020/0349/FL Application for change of use of land to form manege at The Old Post Office, Harwood Dale. (Additional Information submitted)

The removal of lighting from this application addresses Council's main concern. The addition of screening to three of the manege's boundaries is to be welcomed. In exercise of my delegated powers, I would confirm there are no objections to the principle of a manege. A condition is also requested on any consent so as to ensure the use is private only.

Dear Helen

My only concerns relating to this application are in connection to the proposed lighting. In order to minimise impact on nocturnal fauna and dark skies qualities, it will be very important that any lights erected are heavily shielded to prevent any upwards light spill, of an appropriate luminosity including of low heat (<3000K), precisely directed so as to minimise light cast outside of the menage itself, and easily controlled so as to only be utilised when the menage is itself in use which will therefore minimise the potential light pollution caused in this remote location.

Many thanks

Elspeth

NYM/2020/0349/FL Application for change of use of land to form manege at The Old Post Office, Harwood Dale.

Concern was expressed that lights were proposed for the manege - the scale plans seem to indicate the lights will be some 5.25metres above ground level but no details are given of the luminance of the lights. In exercise of my delegated powers, I would confirm there are no objections to the principle of a manege. Council would ask that further details are obtained of the nature and luminance of any proposed lighting in order to ensure light pollution is kept to a minimum. A condition is also requested on any consent so as to ensure the use is private only.

Thanks for this. I struggled to read the map on the application as it was very unclear and vague. It doesn't show the relationship of the Arena to the Public Right Of Way. How near is it to the Arena .? Also what does the figure 4 represent at the start of your Grid Ref as this is new to me. Usually there is a 4 or 6 figure one . Will they use the footpath to access this Arena? If The PRow is not affected then we have no objection to this. I would just like to be reassured that's all. Thanks. Les M Atkinson, Footpath Secretary, Scarborough Ramblers Group.
