Hello.

Unfortunately this is the last day for comment on the above planning application. I was hoping to discuss it with someone before sending an email but your number is only taking messages.

Mr Dobbie's application for a certificate of lawfulness for this shipping container is presumably the start of the process to get planning to construct a dwelling of some sort.

Several years ago he applied for the same certificate of lawfulness for the old touring caravan in the neighboring field which he then used as a stepping stone to his log cabin development.

The old lorry is ugly and can be clearly seen from the road and these facts alone should be enough to stop it from getting permanent planning permission, but I am also very nervous that if this application is granted he will use it, as before, as a spring board for further development.

Many thanks

Kelsall McEwen
