---

Dear Mrs Saunders,

Re construction of 2no single dwellings with associated access, parking, and amenity at land to rear of Brookfield, Maltongate, Thornton Dale.

We again write to reaffirm our objection to the re submission of plans to develop the land to the rear of Brookfield Maltongate.

There have been several changes to the proposed parking arrangements for Brookfield and surrounding properties. Parking remains a major concern, especially on Maltongate, which has limited parking used by existing dwellings.

We also note the inspectors appeal of 1 August 2017 clearly stated 'any development which would have unacceptable impact on the setting of a listed building will not be permitted'

May we therefore again endorse our objection as previously communicated on 19 October 2019 and 4 June 2020

Yours sincerely,

David and Christine Anderson  
Bridge House,  
Maltongate
