Re: NYM/2021/0050/FL

Response by Arqiva

Thank you for the opportunity to review and comment on the above development.

Arqiva is responsible for providing the BBC, ITV and the majority of the UK's radio transmission network and is responsible for ensuring the integrity of Re-Broadcast Links. Tall infrastructure such as wind turbines and other tall structures have the potential to block radio transmission links and rebroadcasting links (through direct blocking of radio signal or deflecting signal). Our radio transmission networks normally operate with a 100m buffer either side of a radio link, free from interference by tall development.

We have considered whether this development is likely to have an adverse effect on our operations and have concluded that we have no objections to this development.

If you would like to discuss this matter further, please do make contact. My email details are windfarms@arqiva.com

Yours faithfully
Keith Waudby
