Subject: RE: nym/2020/0986-Selbourne House-Robin Hoods BAy

Hello Kelsey,

Thank you for the prompt response. In light of your email the applicant has for now removed the stable door from the proposed works. The existing door will remain in place.

The client has also agreed to use putty on the windows instead of glazing beads. Do you require amended joinery drawings to reflect this to finalise the application?

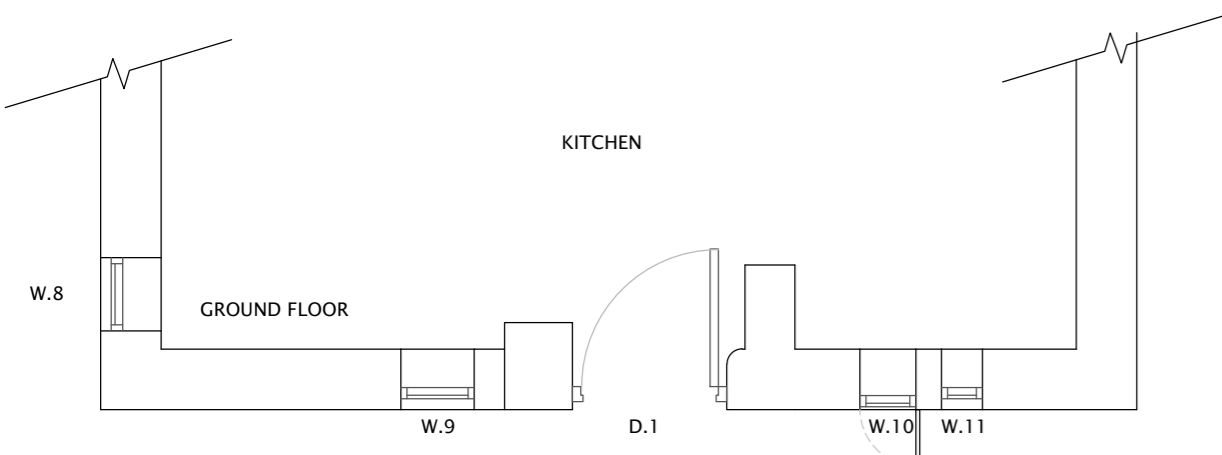

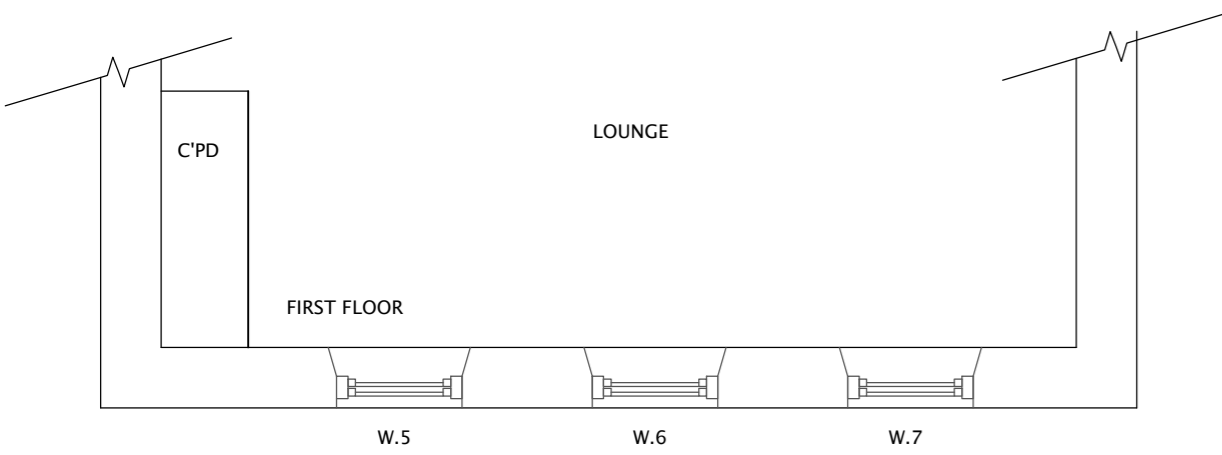

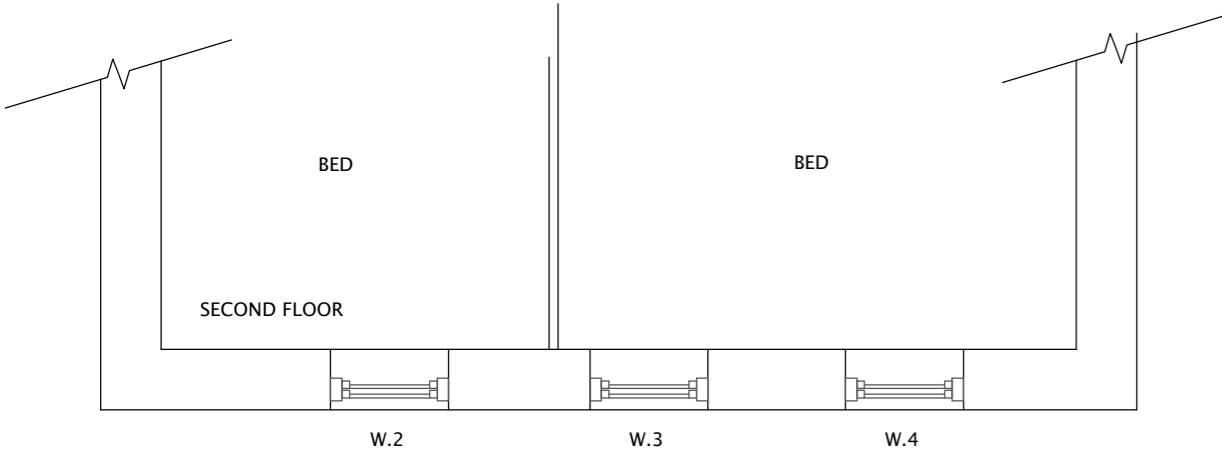

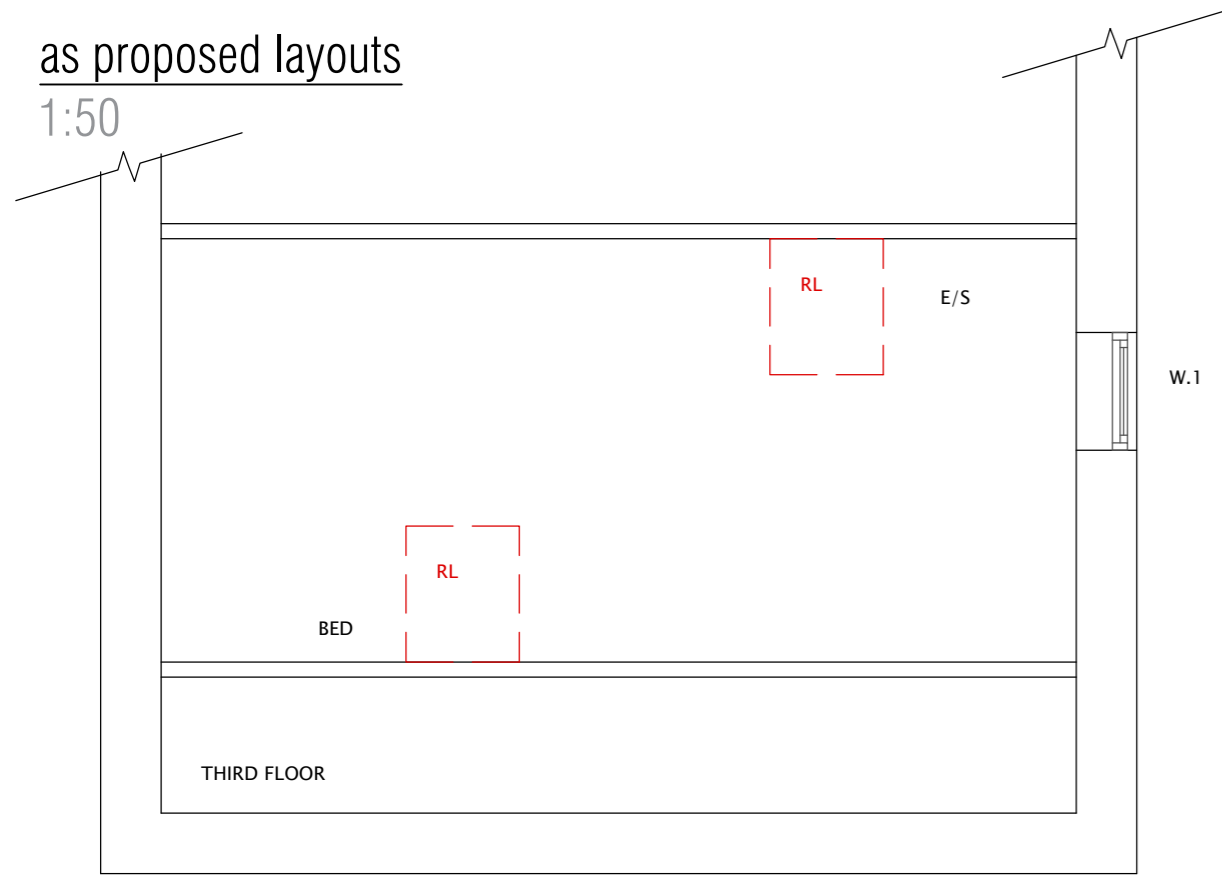

I have attached a revised drawing 2036-401-B to show the entrance door left as is.

Please let me know if you require any further information.

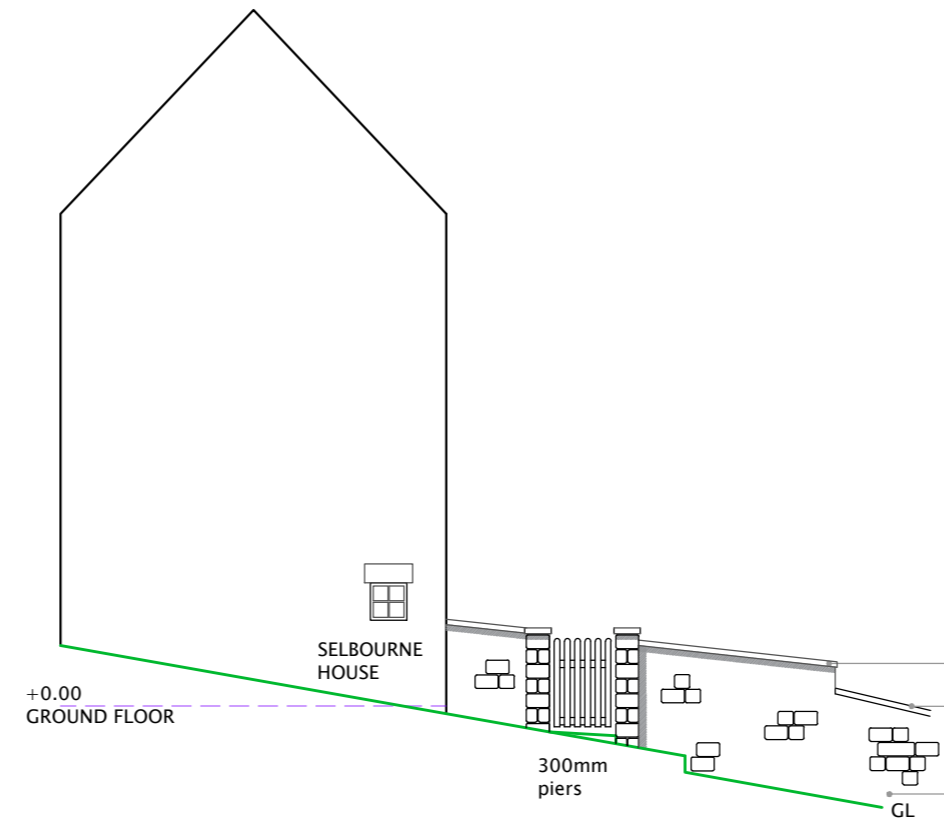

Regards,

Richard Waller

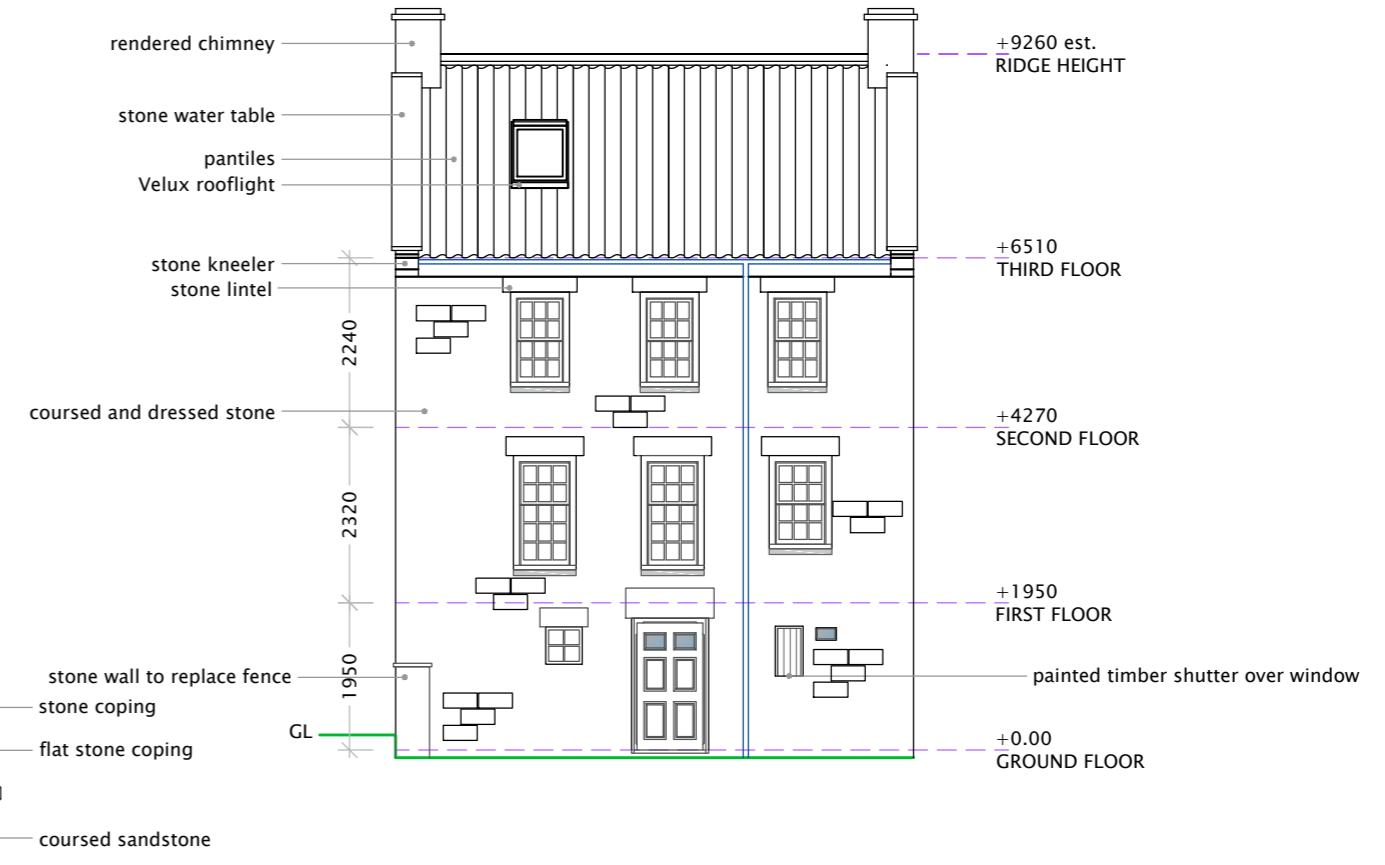

as proposed layouts
