

**NORTH YORKSHIRE COUNTY COUNCIL
BUSINESS and ENVIRONMENTAL SERVICES**

**LOCAL HIGHWAY AUTHORITY
CONSIDERATIONS and RECOMMENDATION**

Application No: **NYM/2021/0087/CVC**

Proposed Development: Application for verification check of conditions 37, 39, 42, 56, 60, 70 & 95 of planning approval NYM/2017/0505/MEIA at Land at Woodsmith Mine (formerly Doves Nest Farm & Haxby Plantation), Sneatonthorpe (minehead); underneath 252 km² of the NYMNPA (winning & working of minerals); a corridor extending underground from the edge of the NP boundary to Wilton Complex (mineral transport system)

Location: Ladycross Plantation near Egton, Lockwood Beck Farm near Moorsholm, Tocketts Lythe, near Guisborough (intermediate shaft sites); site within the eastern limits of the Wilton Complex, Teeside (tunnel portal)

Date: 10 March 2021

FAO: Rob Smith **Copies to:** Area Office

The Highway Authority has received sufficient information to discharge the condition relating to **NYM/2021/0087/CVC** however further assessment of these proposals may be required to ensure compliance with highway legislation.

The Local Highway Authority has considered the following conditions:-

LOCAL HIGHWAY AUTHORITY CONSIDERATIONS and RECOMMENDATION

Continuation sheet:

Sheet 2 of 2

Application No: _____

Condition Number		Discharged/Not Discharged
37	TRO details	Not discharged. The LHA considers there are Traffic Regulation Orders required for temporary speed limits during construction for the A171 and the C82.
39	Programme for delivery of off-site highway works	Insufficiently detailed programme to discharge the condition. Given the A171 is a key route the LHA needs to be better informed of how the programme for the works will impact on this key route. The programme also needs to take account of potential spikes in traffic resulting from the Governments roadmap for relaxing COVID restrictions.
42	Access Details	Insufficient detail to full discharge the condition
56	Scheme to prevent Damage to roadside verges	Outside the remit of the Local Highway Authority
60	Surface water management	Outside the remit of the Local Highway Authority
70	Arboricultural Method Statement	Outside the remit of the Local Highway Authority
95	Written Scheme of Investigation (archaeology)	Outside the remit of the Local Highway Authority

Dear Mr Smith

Proposal: APPLICATION FOR VERIFICATION CHECK OF CONDITIONS 37, 39, 42, 56, 60, 70 & 95 OF PLANNING APPROVAL NYM/2017/0505/MEIA AT LAND AT WOODSMITH MINE (FORMERLY DOVES NEST FARM & HAXBY PLANTATION), SNEATONTHORPE (MINEHEAD); UNDERNEATH 252 KM2 OF THE NYMNP (WINNING & WORKING OF MINERALS); A CORRIDOR EXTENDING UNDERGROUND FROM THE EDGE OF THE NP BOUNDARY TO WILTON COMPLEX (MINERAL TRANSPORT SYSTEM); LADYCROSS PLANTATION NEAR EGTON, LOCKWOOD BECK FARM NEAR MOORSHOLM, TOCKETTS LYTHE, NEAR GUISBOROUGH (INTERMEDIATE SHAFT SITES); SITE WITHIN THE EASTERN LIMITS OF THE WILTON COMPLEX, TEESIDE (TUNNEL PORTAL)

Thank you for your consultation regarding the above proposal which was received on 16 February 2021.

We have reviewed the information submitted with the application and we have no comment to make on this stage of the project.

We trust the above advice is useful.

If I can be of any further assistance, please don't hesitate to contact me.

Yours sincerely

Mrs Frances Edwards

Hi Rob

Just to confirm formally, the submitted CEMP for the works included in this CVC is acceptable and I have no further comments.

Best wishes

Elsbeth

Subject: RE: Woodsmith Mine - Ladycross site 2021-0087-cvc
Date: 25 February 2021 15:38:59

Afternoon Rob,

Thanks for this, very helpful. Yes, I was consulted on 2021/0087/CVC, which this applies to, but the documentation didn't include the WSI, only mentioned it. Luckily a Project Manager from Cotswold Archaeology has already had the initiative to contact me directly about the Ladycross works, and I have discussed the WSI needs over the phone with him.

The document you have forwarded to me shows that Cotswold have taken my comments on board, and I can now confirm that it meets the needs for the watching briefs at this site. I've copied planning general email in to confirm. I'm happy with condition 95, looking forward to hearing how the work goes.

I have asked that Cotswold give me plenty of notice, as I'd like to carry out a monitoring visit on the archaeologists if possible. I know I'll have to liaise with Anglo-American on this, but it would be very useful to see some of the work first hand and have a chat with their project officers as the archaeology elements of Woodsmith Mine begin to come to a close.

Best,

Nick Mason
Archaeology Officer

Hi Nick

Not sure if you've already received a consultation on the above? The original submitted documents did not include an archaeological WSI. I've just received this separately and it's now attached.

Your views on this would be really helpful.

Thanks very much.

Rob

Good afternoon Rob

As promised in my email of 23 February, please now find attached the Archaeological Written Scheme of Investigation which has been produced by Cotswold Archaeology as supporting information to the Phase 1 discharge of conditions application.

If you require any further information, please do not hesitate to call either myself or James Cox.

Best regards

Hi Rob

The clearance plan at appendix F has been amended and the wording at section 8, page 10 describes the method or working for the tree removal.

There are no other changes to the document.

Best regards

Thanks Angela, just to avoid me having to do a lot of checking, is it only the vegetation clearance plan in appendix F that has changed, or is there anything else I should be aware of?

Many thanks

Rob

Good afternoon Rob

My apologies for the delay in getting this back to but please find attached the revised CEMP which now clarifies the area of tree clearance for the Ladycross site entrance.

I will forward the Archaeological Written Scheme of Investigation, for your information, once we have received this from Cotswold Archaeology.

Should you require any further information, please do not hesitate to let me know.

Best regards

Hi Angela, given the automatic redirection to the Anglo American website I don't think there's any need to do anything now regarding the blasting scheme. I agree it might be an opportunity to tidy this up when you submit phase 14, whenever that may be.

Best regards

Rob

Subject: RE: call re Ladycross

Hi Rob

Thank you for your understanding.

Arup are amending the site clearance drawing to better reflect the limited area of tree clearance and as soon as this is available I will get it appended to the CEMP and uploaded. This may be later today or possibly Monday but I will drop you and email to let you know when it is done.

On another point, condition 33 (Scheme for Prior Notification of Blasting) was fully discharged on 19 November 2018 in Phase 7. The report has recently been updated to align with Anglo American branding which has meant a change to the website address within the report. There are no other changes to the content of the report.

In the approved version, you are directed to www.siriusminerals.com. The revised website address is uk.angloamerican.com. If you type www.siriusminerals.com into your browser bar you are redirected to the Anglo American Woodsmith project website. I attach the revised report for your information.

Can you advise whether we should re-discharge this condition please, given the change to the website address, and if so, whether you would prefer that we re-discharge the condition now (I believe blasting is scheduled to commence around the third week of March) or whether it would be acceptable to include this in Phase 14 which we are working on the documentation for now? At this stage I cannot confirm a submission date for Phase 14.

Thank you and very best regards

Angela

Hi Angela, sorry I missed your call earlier – I've been out all day. The approach you suggested in your voicemail sounds fine and we'll look out for the new documents.

Thanks

Rob
