

Design and Access Statement

The proposed plain glazed windows will be more in keeping with the majority of the houses in Ravenscar. The church which is next to the property has plain glazed windows fitted at the front and sides. The windows in the property are old and don't meet current standards.

The front door which doesn't meet current standards will be replaced by a door that is more secure and more efficient at reducing heat loss. The style and colour is similar to other nearby properties and appropriate for a coastal village.

The proposed changes do not affect access to the property.

Hi Wendy,

These are the current windows and doors, I've requested drawings of how the windows will look with plain glaze and the 2 doors.

Kind Regards
