Ailsa,

As far as I am aware we are still on track to complete the bat survey following the end of the hibernation season during May and I will pass on the relevant survey details as soon as they are available.

My client has advised that there is a possibility that an elderly parent may be needing to move in with them. The ideal solution would be for them to take up residence in one of the letting units in order to maintain a degree of independence, making it an annex to the main house. I assume there would be no difficulty in obtaining permission for that use but is it possible for the current application terms to be amended to take account of this and, if so, would that result in delays (advertising and so forth). I think we would require an either/or use option on one or both of the units. It would help if this could be done at this stage.

I look forward to hearing from you.

Regards,

Tony
