Dear Kelsey,

We have selected dark grey, either Anthracite Grey (072) or Slate Grey (152) from the Heritage Colour Collection.

We propose the Genesis Flush Sash as seen on page 7 of [genesiscollection.co.uk](http://genesiscollection.co.uk) brochure 'The Flush Sash Window'.

Kind Regards  
Elizabeth Dixon

Dear Liz,

Thank you for confirming the chosen brand and colour of the proposed replacement windows.

I can confirm that the proposed flush fitting windows would be acceptable. I would be grateful if you could confirm the glazing bar pattern for the proposed windows. This could be via a simple elevational sketch of the proposed windows, or an image of the chosen window style taken from the website.

With regards to the colour of the windows, as previously advised I would recommend that a dark colour is used. This could be a dark brown or a dark grey. If you would prefer to use a lighter colour, I would advise that a simple white is used. The proposed Claystone is not felt to be appropriate for this domestic property.

I would be grateful to receive the above information at your earliest convenience. Once I have received this information I will be able to agree an extended decision date for the above application.

Kind regards,

*K. Blain*

Dear Kelsey,

The windows we've chosen are at

<https://genesiscollection.co.uk/windows/casement-windows/upvc-flush-casement-windows/>

We've selected the colour Claystone (337) from the Heritage colour selection. This will match the colour of the window frames in the church. We would like to change the colour of the front door to the same colour.

Kind Regards  
Elizabeth Dixon
