Dear Sirs,

The windows have been measured at Hillside by James Thompson of Straw Builders in Robin Hoods Bay. They have suggested these replacements from the Rooflight Company, as agreed. They're exactly the same size as the existing windows. We're hoping to do the work in in October.

Regards
Dave Clark

Hi Dave

great to meet you today.
So looking at the internal sizes of the roof windows that are already in, we'll propose these windows as the replacements;

2x CR07 - 2 | <https://www.therooflightcompany.co.uk/shop/cr-7-conservation-rooflight>
1x CR01 - 2 | <https://www.therooflightcompany.co.uk/shop/the-conservation-rooflight/cr-1-conservation-rooflight>
2x CR08 - 2 | <https://www.therooflightcompany.co.uk/shop/the-conservation-rooflight/cr-8-conservation-rooflight>

regards
