The information on plan does not match that of the supporting information. It would appear there has been a mix up. The plans show to replicate the existing stormproof arrangement but introduce double glazing, this would be contra to guidance and could not be supported. Whereas, to change the pattern of fenestration to a Yorkshire sliding sash like next door, would allow us to be able to support the introduction of double glazing as this would fit within the test set by Historic England guidance. Can the applicant please amend the detail of the plans to replicate what is shown in their supporting statement?
