---

Good evening,

Application NYM/2022/0635/FL - Council have no objections to the planning application, however, Council has shown concerns over where the skip and shipping container that is currently located at the property will be placed whilst works are undertaken.

Application NYM/2021/0592/FL - Council object to this application, Council has concerns in relation to the speed limit approaching the access, currently 60mph down to 30mph just before proposed location. Council object to using 7 acres of agricultural land for the purpose of landscaping. Council also had concerns over drainage arrangements which would see water from the fields flow to the access area, at this time Council do not feel the drainage is substantial enough to cope with the amount of water in the location.

Kind regards,

Steph Glasby

Clerk to Hawsker cum Stainsacre Parish Council
