Importance: High

Good morning,

With reference to your query about the width of the glazing bars and the dimensions of the stiles and frames, I can inform you that the glazing bars are all 22mm. all outer frame is 70 mm, the sliding sash sections are 45mm on sides and tops with a deeper bottom rail of 70mm. The thickness of the sliding sashes will be 45mm and the glass will be 4-4-4 slimline. I have put these measurements onto the attached plan of the window for your information. I trust this will suffice for you, however should you require any further then please let me know.

Best Regards.

Gavin McDonald.
