**Subject:** Re: NYM/2021/0632/AGRP - Hodgson Moor Farm

Afternoon,  
No trees or shrub need to be removed.  
The building will back onto our side of the adjoining woods.  
Hope this answers your query .

Dear Mr Fenby

I refer to the above agricultural notification which is currently under consideration and due for determination tomorrow.

Although I have relatively few concerns in respect of the development, it has come to my attention that the Authority's Ecologist has requested a little bit of additional information in relation to the possible need to remove trees and scrub in order to accommodate the building. I apologise for this oversight but I would be grateful if you could confirm whether any trees require removal and if so, would it be possible to propose their replacement elsewhere on site using similar species?

I look forward to hearing from you at your earliest convenience.

Yours sincerely  
H. Stephenson
