Subject: NYM/2021/0541/LB - Hazelwood Appleton Le Moors windows - CVC

Dear Kelsey and Team

Having been granted listed building consent for replacement windows I understand I also need to notify you of the colours I intend to paint them.

In the hope that the following colours conform to the character of the building

The widow frames and bars - [White Lead \(exterior intelligent eggshell\)](#)
The doors and frames - [Olive Colour \(exterior intelligent eggshell\)](#)

Both by Little Greene

I would be grateful if you could let me know if these are acceptable as soon as possible as we hope to get the paint on before winter closes in.

Many thanks for your advice

Jonathan Finch
