

North York Moors National Park Authority

2 December 2021 Planning Committee members update sheet

Item 1, NYM/2020/0990/FL

Mrs E Carter, Egton – Wish to reiterate concerns about the dispute relating to the naming of the property, the lack of prior notification for the alteration works to the agricultural building, delivery of a tractor to the site on a low loader along the farm track which was originally a horse and cart shared access for the farm and dwellings.

Have submitted a photo and video showing that work is carried out in the workshop with light spilling out of the roof panels at night and there is ongoing noise disturbance.

Reiterate, that the site is not considered suitable as a commercial workshop.
