Good Evening Megan,

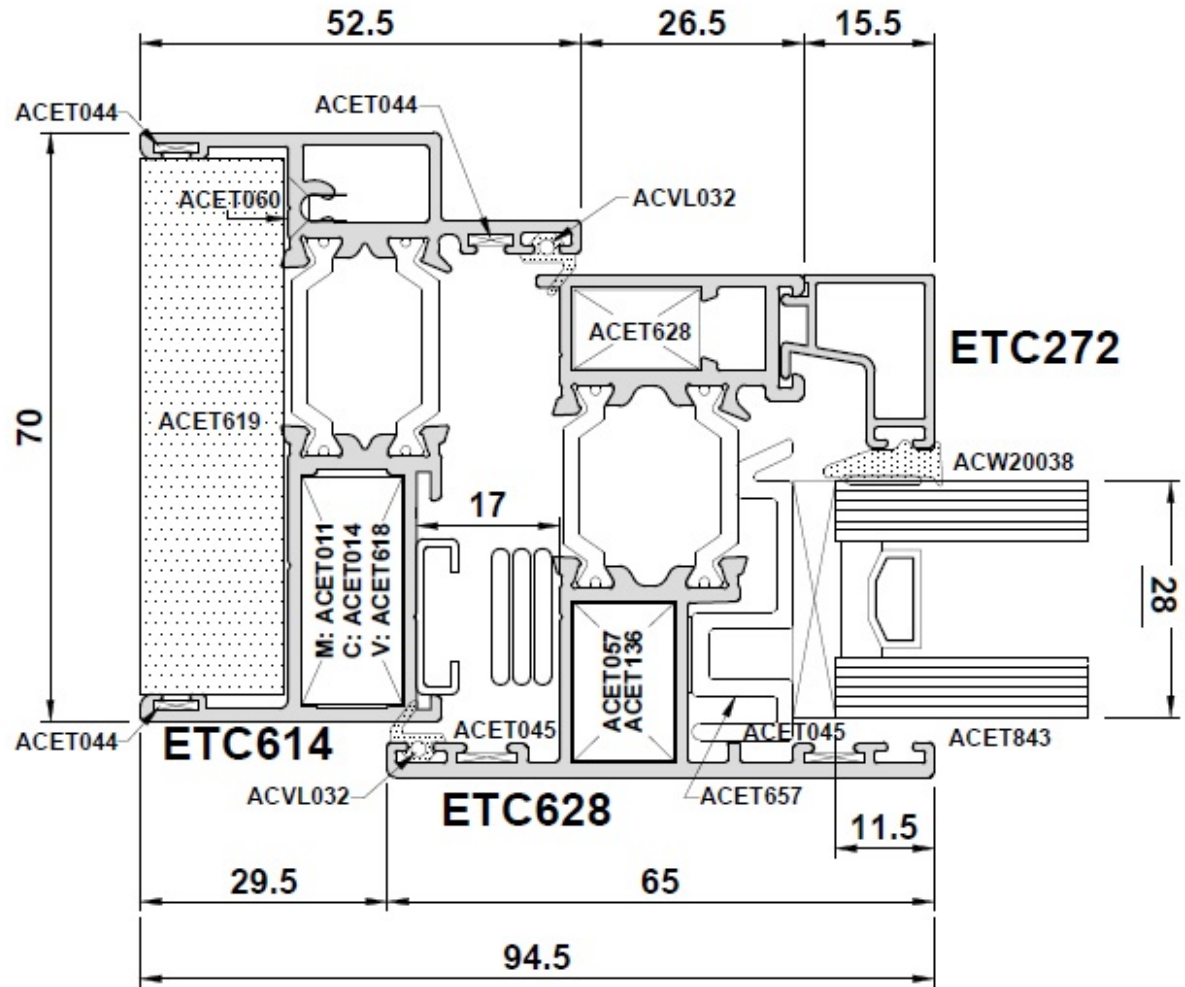

I hope you are well.

After a discussion with Mark Hill last week it was discussed that there was a chance that Aluminium windows maybe allowed instead of wood windows on the Sandfield House Farm development, Ref NYM/2022/0032.

Please see attached some pictures of the windows and profile drawing for your consideration. Should you wish to discuss this with me then do not hesitate to get in touch.

Kind regards  
Craig Horrocks
