Hi Megan

I now attach revision 4 and would advise as follows.

I have reinstated the glazed roof to the sun room – this will probably have to be replaced when the chimney is removed and glass will be used rather than polycarbonate.

I have indicated a screen between the sun room and the dining room to comply with Building Regulations on heating.

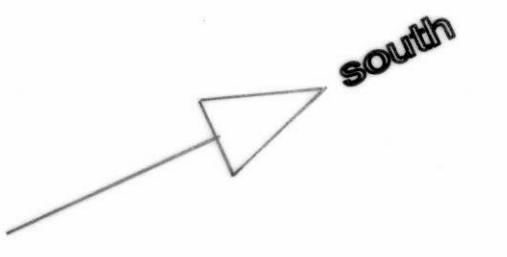

I have extended the kitchen under the loggia.

The wood stove has been moved between the dining room and reception room which will remove the exposed flue from the gable.

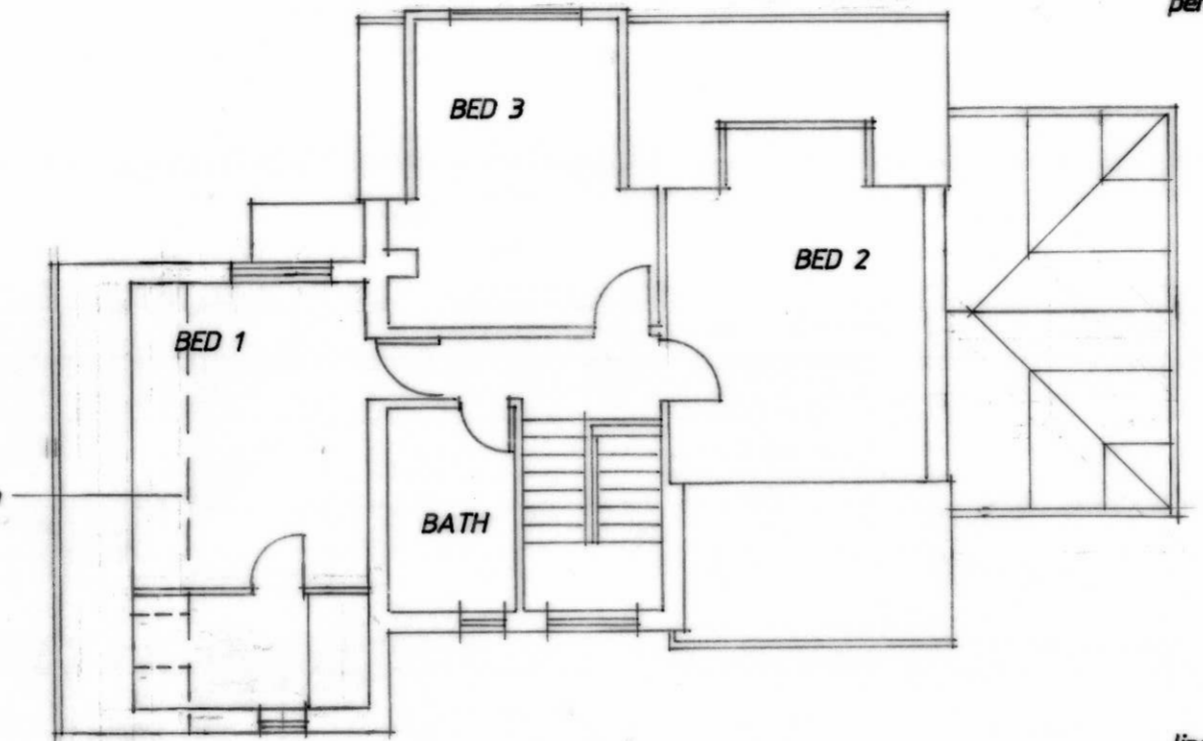

I hope this is now in an acceptable form – thank you for your patience.

Regards David.
