FAQ: **Copies to:**

The Highway Authority has received sufficient information to discharge the condition relating to **NYM22/0202** however further assessment of these proposals may be required to ensure compliance with highway legislation

The Local Highway Authority has considered the following conditions:-

Condition no 9

Relating to the submission of a Construction Management Plan can be discharged.

Sufficient information has been received subject to the confirmation of the route for construction and haulage vehicles being via North Moor and Wykeham to A170.

The condition survey undertaken on 17th March showed no significant issues with the route although it was noted that some stoning and grading of the existing accesses may be advisable to allow their use as passing places. Also due to the narrow nature of sections of the route some verge damage could reasonably be expected as vehicles try to pass one another, which would need grading and reseeding after the works.
