Description of the Proposal

Please note in regard to:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning guidance on fire statements</u> or access the fire statement template and guidance.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

Description

Please describe details of the proposed development or works including any change of use

The proposed development is to utilise a small area of land within the boundary of The Hulleys to create a camping site and separate glamping site for an extended season, above and beyond that allowed by the "28-day camping rule" (permitted development). This means a change of use for the land from its current agricultural use (grazing pasture) to a designation that permits camping and glamping for longer periods (6m of the year)

The proposed development will consist of two areas. The glamping area (marked in yellow on the attached site plan) will house four 5m bell tents which will be permanently sited (for the duration of the season) and fully furnished to allow visitors to "just turn up" and have everything they need already in place. The camping area (marked in green on the attached site plan) will house 20 open pitches for people to pitch their own tents (i.e. traditional camping). Pitches will be marked by allowing the grass to grow slightly between pitches, rather than using any form of artificial markers.

Both areas will be serviced with temporary toilets, bins and washing facilities to ensure that visitors have no need to soil the environment. There will be no electricity hook-ups for either location but access to fresh water will be provided.

The hope is to have the option to operate both sites from April through until late September, though the actual use will likely be shorter depending on demand and the weather at each end of the season.

All guests will be asked to respect the National Park as part of their welcome pack an will be referred to the National Park website for information on how to enjoy their stay in a safe and respectful way.
