Subject: Comments on NYM/2022/0130 - Case Officer Mrs Hilary Saunders - Received from Mr John Harrison at 20 Esk Valley, Grosmont, Whitby, YO22 5BG
Date: 23 April 2022 09:15:31

Whilst I have no objection to the change of use, I do take issue with the sentiments expressed in the third paragraph of the Supporting Document (Section H - Conclusion). This reads :
“Much time and effort has been spent developing this scheme, in open and collaborative discussion with the LPA to develop a proposal that is appropriate to the site, sympathetic to the heritage of the buildings, considerate to the nearby adjoining owners and, above all, contributory to the quality and character of the National Park.”

The property has not been developed in a manner that is contributory to the quality and character of the National Park. The extension has been built out over an almost sheer drop and is completely out of character in the National Park. It is a blot on the landscape that can be seen from the Rail Trail and surrounding area contrary to the statements made in the original application that it cannot be seen from a public highway or footpath. It destroys the views from the surrounding area that the applicant is praising in the current application. Views can be looked at from both ends. Additionally, the large windows are out of keeping in an area claiming to be a ‘dark sky area’. The light pollution can be seen for miles around.
