Good afternoon Hilary,

Thank you for sending the revised CEMP. The document does detail the storage, refuelling and waste disposal details required by condition 7, and therefore I am satisfied it is sufficient to discharge condition 7.

Best wishes,

Good afternoon Helen,

Condition 7 requires details of “how and where materials and sediment will be stored and moved, details of machinery and plant storage, refuelling arrangements and disposal of waste materials.” The submitted CEMP details storage details but no details of machinery/refuelling or waste disposal. Until these are submitted we can’t support the discharge of condition 7.

Best wishes,
