Subject: Question on NYM/2022/0461
Date: 16 August 2022 09:49:06

The development description says "erection of polytunnel for horticultural purposes and creation of wetland area with four ponds"

But on the plans I notice that it says "proposed layout and wetland area and ponds - proposed learning centre classroom and ponds"

I can't see a mention anywhere else of a learning centre. Please can you confirm whether or not the development is also to be used for educational purposes (since I can see that will involve additional vehicle trips to/from the premises).

Thanks, Jools
