Morning Wendy

Just to confirm that the payment has been made by me and that we wish for the application to proceed. I have made it under ref: NYM/2022/0498.

Can I just check if there has been some confusion with reference numbers – the original number I have is NYM/2022/0498 and not NYM/2022/0653.

In relation to two of those issues it is confirmed:

- The shed will be for mixed livestock, horses, sheep, goats and chickens.
- In relation to CO2 you will see that the 10% requirement is largely met by solar panels on the majority of the shed roof.

I will endeavour to deal with the trees issues in my next email.

Hopefully the above is sufficient to validate the application.

Kind regards

*Cheryl*

Please Note: It would be helpful if you could attach a sketched block plan annotating which building is which as referred to above.

Please detail below how the farming operation on site may change as a result of the proposal i.e. increase in stock levels or justification for the use of the new building.

Covered handling facilities will allow use of modern electronic weighing and recording equipment and prevent foul water run off, thus improving efficiencies.
