Details of the pre-application advice received

validation requirements for the application for industrial units at Whitby Business Park. I have undertaken a constraints check of the application site and would advise that the following is required:

- Completed full planning application form
- Ordnance survey licenced location plan which shows the scale, direction north, application site edged in red and any other land in your client's ownership edged in blue
- Existing and proposed site plans, block plans, floor plans and elevations drawn to scale
- If the total floorspace exceeds 1000 square metres and is therefore considered to be a major development, a Design and Access Statement
- If the development is more than 1 hectare, a Flood Risk Assessment

Having read through the EIA regs I am of the opinion that an EIA won't be required.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
