Hi Victoria,
Steve has forwarded the measurements below.
Regards,
Anna

Good afternoon Anna.
The glazing is 4-6-4, which is about as thin as you can get. 4mm glazing with 6mm gap. Regards
Steve

Morning Steve,
Do we have the info requested below?
Thanks,

Anna

Morning Anna,

Thank you for those. The only thing to clarify is the thickness of the slim line double glazing, apologies if I have missed it, I just could not see it on the drawings.

Kind regards,

Vicky Flintoff

Evening Victoria,

I have just received these drawings - and hope we can now move things forward!

Thank you,

Anna
