Validation Checklist

To ensure that the Planning Officer dealing with your planning application has a complete picture on which to base their judgments and to ensure proper public consideration, the following information is required at application submission stage. Failure to supply the required information with a planning application submission will delay a decision on the proposal as the statutory determination period will not begin until the required information is submitted and the validation requirements fulfilled.

Please complete the attached checklist to indicate what you have included with your application. All plans should include paper size, key dimensions and scale.

Standard National Validation Requirements (Three copies are to be supplied unless the application is submitted electron	ically)	
Completed Application Form with Signed and Dated Declaration	YES	NO
Application Fee Please see the Authority's Fee Sheet for further information.	YES□	NO
Some or all of the Following Information may also be Required De Nature of the Proposed Changes:	pending o	n the
Amended Site Layout Plans to a recognised scale i.e. 1:100, 1:200 or 1:500 with a north arrow labelled.	YES□	NO
Other Plans and Drawings or Information Necessary to describe the subject of the application.	YES□	NO
Please do not hesitate to contact the Development Management Administration	on Team if y	ou/

Guidance Notes

Application for Non Material Amendment Following Grant of Planning Permission

These notes have been written to help you with the submission of your planning application.

Application Forms

Please submit three copies ensuring that all parts of the form are completed and the declaration is signed and dated unless submitted via the Planning Portal.

Application Fee

Please see the Authority's Fee Sheet for further information.

Amended Site Layout Plans

This is to allow neighbours to view the plans at a larger scale, identifying the position of buildings within the site in relation to their own properties. It can be difficult to assess the potential implications that the proposal might have at a smaller scale. The plan should be to scale i.e. 1:100, 1:200 or 1:500, with a north arrow labelled, showing the site in relation to existing buildings and site boundaries. It should indicate where existing features of the site are located including existing buildings (indicating proposed demolitions), trees (identifying any proposed felling), means of access and type of enclosure (wall, fence, hedges) and shall show adjacent properties/buildings.

Other Drawings Relevant to the Application

Detailed drawings must be submitted to scale i.e. 1:100 or larger showing elevations, cross sections, floor plans and layouts of the proposed works together with proposed ground levels and floor levels. Drawings shall include both existing and proposed details. It is a legal requirement that all measurements must be in metric and not imperial form. Any drawing submitted using solely imperial measurements will not be accepted and will be returned for metric conversion.

Important Information

The plans submitted as part of any application considered by the Planning Committee will be scanned and possibly used in a PowerPoint presentation of the scheme. It is essential, therefore, that the plans are sufficiently clear so that the details of the proposal can be easily seen when projected onto the screen.

If the plans are not clear resulting from, for example, discoloured paper or particularly fine line drawings it may be difficult for Members of the Committee to appreciate fully the details of the scheme which could result in a delay in the determination of an application if Members consider it appropriate to seek further clarification of aspects of the development proposed. Please try to ensure that submitted plans are clear and that they meet the requirements set out in this Guidance Note.
