Site address: land adjacent Red Barn, Hawsker Lane, Hawsker

With regards to the above application, which is being discussed at the upcoming planning committee meeting on Thursday 13th July, which I am unable to attend, I would ask that the following statement be provided in relation to the application.

“In relation to the planning application I would like to clarify the reason that the application was submitted with a time limit of five years. This question was asked by a committee member at the original meeting but was answered by the planning officer based upon the information she had at the time, which was incomplete - an error on my part.

The primary reason that I requested a time limited permission was to evidence to the committee that I was not seeking a long term permission, but rather a temporary solution to my short term issue of suitable local accommodation. Thus maximising the equality of opportunity for the disabled people that I seek to help, many of whom do not have the luxury of time for a permanent solution to be put in place.”

Kind Regards
