Subject: Re: NYM/2023/0603 & NYM/2023/0605 - School Farm, Aislaby

Hi Lucy

Thank you for your email. I did try to call but unfortunately you were unavailable.

I'll endeavour to explain. With regards to the retrospective planning, it was felt the applicant was fully aware their property was listed and therefore permission should have been sought before undertaking any work, it is very important that Listed Building consent is granted prior to commencing any works and the regulations are there to be adhered to.

The new application, provided it adheres with the planning rules, the council do not have a problem with, especially as the request has been made prior to the commencement of any works.

Ultimately this comes down to the fact that works went ahead previously when it was known the building had conditions on and should have come through planning.

If you require further clarification, please let me know.

Many thanks

Connie

Good afternoon,

Thank you for your consultation responses in relation to the above applications.

I am writing to request clarification in relation to your comments. I note that you have objected to NYM/2023/0603, which is the planning application for the installation of the replacement windows. However, I have received a response of no objection for the associated Listed Building Consent application NYM/2023/0605, which is for the same development.

I would be grateful if you could clarify the Parish Council's position in relation to both applications.

I look forward to your response at your earliest convenience.

Kind regards

Lucy
