Dear all,

Following my phone messages earlier, I'm happy to report the WSI for The Room That Sings installation at Cross Cliff is approved with no additional comments.

I understand that works may commence as soon as this coming Monday. In principal I am happy for the watching brief works to start then, but please bear in mind we haven't yet received a formal Condition Verification Check for [condition 6 of NYM/2021/0822/FL](#). If this could be submitted ASAP that would be great. I've copied in Emily Jackson from our planning team for info.

Please do let me know when the watching brief work commences, especially if it is Monday, and if any features turn up. It's not often we get the chance to carry out interventions in forestry so I'll be keen to visit the site.

Best regards,

**Nick Mason**
