Others

	Average number throughout the year	Additional information
Other Livestock, i.e. Horses	2	Pet Donkeys

Land

	Area in Hectares	Additional information
Size of Holding	41	41 hectares owned
Available Grazing Land	20	
Arable Land	21	
Moorland	-	
Grazing Land on Short Term Tenancy	74	74 hectares rented

Agricultural Buildings

List main existing agricultural buildings and use	Approximate dimensions in metres	Is it a modern or traditional building?
1. Main Shed - stores feed + 4000 bales	40m x 18m	MODERN
2.		
3.		
4.		
5.		
6.		
7.		
8.		

Proposed building(s) and use	Dimensions in metres
1. Sheep shed For lamb breeding ewes + finish store	22.5m x 14m
2.	

Please Note: It would be helpful if you could attach a sketched block plan annotating which building is which as referred to above.

Please detail below how the farming operation on site may change as a result of the proposal i.e. increase in stock levels or justification for the use of the new building.

New shed is to be used for the lambing of our main flock of ewes giving a clean and hygienic environment that is important part of the new government flock health management via the SFI programme. Sheep would be easily managed and handled in the new shed and would help with economical and environmental challenges that face modern farming. This would also mean that sheep can be housed and handle away from the hay that is produced largely for the equine market.
