Hi,

Thanks for consulting me on this proposal.

From the plans supplied, the proposed site of the memorial is just adjacent to the track – which is recorded as Public Bridleway 3 – Silpho. Whilst I have no objection, please ask the applicants to ensure that the track/bridleway is kept open for use and free from obstruction at all times and any damage to the track surface during the memorial's installation must be repaired asap.

Many thanks.

Emma

No objection to the proposal. Just a general comment regarding works near to public rights of way.

All public rights of way must remain available and unobstructed. Appropriate information signs should be displayed to advise users of the operations. Any damage to the surface of public rights of way resulting from the works must be repaired on completion. If the safe use of public rights of way cannot be maintained then a temporary closure must be requested through the NPA with 6 to 8 weeks notice.

The NPA must be informed prior to any works undertaken on or adjacent to a public right of way that may impact on it's safe use or condition.

Hi Planning ,I don't see anything to object to here. I quite like memorials. I hope I have one someday. Les M Atkinson.
