Description of Proposed Works

Please describe the proposals to alter, extend or demolish the listed building(s)

This application seeks to replace the existing kitchen door and frame with a new hardwood stable door of plank construction and frame.

The current panel door dates from 2011 and is referred to in planning application NYM/2011/0306/FL. The door has subsequently had a cat flap fitted and both the door and cat flap fit poorly leading to draughts and water ingress.

The door accesses the kitchen from the drive on the northeast facing elevation of the property. The kitchen door serves as a utility door, providing access for functional purposes such as deliveries. It is not designed or intended as a primary entrance to the house.

The intention is to replace the existing door and frame with a white painted hardwood, half glazed stable door in keeping with other external doors in close proximity. No modification to stonework will be required.

Replacing both the door and frame will ensure a better fit and the increased area of glazing will permit a greater amount of light into a room that is often dark given its orientation and the close proximity of other buildings. The stable door configuration will allow for improved ventilation required on hot days (the only oven in the kitchen is a large Aga), whilst keeping the kitchen secure for pets.
