Hi there

Responding with comments on application 2024/0444 for the demolition of sheds and construction of five homes, parking, etc off coronation avenue in Hinderwell.

We are one of the neighbouring properties to the proposed development, The Old Dairy and our garden end will border with the new development.

While not against the plans at all, as I think they will help improve the area, as the current tall tin roofs and outbuildings aren't great to look at, there are a couple of things I wouldn't mind getting further information on.

1/ The end house, property C on the plans, I think has a side window planned. This window will look directly over and into our garden. I would like more info on this please.

2/ Currently the fence that separates the plot with my garden is probably going to have to come down and be replaced. I would like more information on what they are planning for this please.

Would welcome any further information and am happy to arrange to meet or set up a call to discuss.

Many thanks

J Bargh, The Old Dairy, High Street, Hinderwell.
