North Yorks Moor Planning Authority

Dear Sirs.

Re: Planning Application NYM/2024/0403

I have lived at Leashead Farm for well over fifty years and remember the fine old house at Foss Farm which was the secret home to mine.

I would be pleased if the house was rebuilt and used as a home for a working farming family again.

A third generation working the land.

Kind regards.

Philip Foster.

22 JUL 2024

Dear Sir

Re planning App NYM/2024/0403
Farm Dwelling & Livestock shed.
Foss Farm.

As a resident of over 40 years
in the Littlebeck valley I am delighted
to hear of the proposed by the Forster
family to reinstate the original
house and buildings at Foss Farm for
their son Robert and his partner.

I strongly encourage the National Park
Planning Committee to approve this
application not only to confirm the
Parks own policy of supporting Local
Business to grow but to help keep
the younger generations in these areas
and thus keeping our community alive.

I hope you will come to the same

NYMMPA

conclusion as well and many of
the local community have done
in welcoming this rejuvenation of
our area, and will allow this
application to progress.

S. R. Priel,

We wish to support the application from Mr and Mrs Forster for a rural workers dwelling at Foss farm. We have known this family for the 27 years we have lived in Littlebeck. During all that time they have proved to be very hard working farmers, in particular their son Robert. We understand the dwelling is for Robert and his partner, giving them the opportunity to live and work the farm We believe the National park should support and encourage young farmers in communities to maintain strong and viable farming. We know the Foss farm site and can only see the benefits of this proposal, also very few drawbacks in character and appearance to this and neighbouring properties. There will be very little impact with traffic and access to and from the site.

I live close to this proposed development and regularly walk past it. I have always thought that it was a shame that the original farmhouse was demolished and that the site is crying out for a proper stone and pan tile house to bring back the character of the area.

This would allow a young couple to live on their own land and farm it more efficiently than is done at the moment due to them living off site.

I have known the Foster family for over 40 years having lived next to them for that period and I can state categorically that I have never known them to do anything that would be considered damaging or degrading to the area or the environment. So I am sure they will build a property that enhances the look of the area.

So I ask that you give your permission to this application so that the site will be enhanced and will cease to have the feeling of neglect.

As the closest neighbours to Foss Farm we would like to support this application. The existing buildings at Foss Farm are in need renovation and present an amazing opportunity for a local young couple to live and farm on site. An additional residential dwelling would have a positive effect on the small community on Foss Lane which currently houses just four families. The dwelling would reduce the existing farm traffic travelling to and from Foss farm and provide additional security to this remote area.
