Hi Jill,

Thanks for your note, but on reflection, although it may fulfil your requirements, it's not going to work ref High Peak House next door, but guess you probably could foresee that so we have discussed the situation and although practically for animals and use of the land the field shelter should be situated in the initial location, we accept your valid points and have jointly agreed with high Peak and now have their personal consent to position the field shelter in front to the tall trees located adjacent the Oil tanks but just 6 foot to the right of their line of sight.

You may recall that if this was accepted the trees would be the overwhelming item and not the field shelter which in fact would be lost amongst the trees totally.

To this end I have attached an updated location plan for your to action.

I do hope now we can process this application for the shelter at full steam ahead now so we can get built asap.

Once again many thanks for your help

Await the next update

Kind regards

Jon

Dear Jon

That looks to be a lot better in landscape terms, thank you. However I will have to formally consult again on the amended location but for 10 days rather than the full 21 days as before. This will probably take us just beyond the target decision date of 4 August but perhaps only by a week or so. Are you happy to proceed with the amended location in this basis?

I'm away from the office now until Friday but will arrange for the consultation to be sent out then once I have your confirmation.

Kind regards,

**Jill Bastow**  
Senior Planning Officer

Afternoon Jill,

Can you pls scan the attached and advise if this is what you was thinking?

Can you also advise if we are still sticking to the original timescales, since we need to get built asap?

Kindest Regards

Jon

Jon Murrell – Account Director - ISS Integrated Solutions, Transport sector.
