Subject: NYM/2018/0212/CVC Phase 4a Works at Woodsmith Mine [NLP-DMS.FID262297]

Rob,

Further to you recent discussions with Rob Staniland, please find attached a letter regarding Condition 91 and 92 of the Phase 4a discharge of condition submission (ref. NYM/2018/0212/CVC)

Kind regards,

James Cox

Your ref: NYM/2018/0212/CVC

Dear Rob

North York Moors: Woodsmith Mine - Application to Partially Discharge Condition 91 & 92 of Planning Permission NYM/2017/0505/MEIA

Further to your recent discussions with Sirius Minerals, we write to request the formal withdrawal from application ref. NYM/2018/0212/CVC of consideration of conditions discharge information (Phase 4a stage) relating to conditions 91 and 92.

This request follows the recent submission of the Phase 5 Emissions Report (*'Phase 5 – Woodsmith Mine Emissions to Atmosphere – NYMNPA - 91: 40-RHD-WS-70-EN-RP-0004'*) as well as the Phase 5 Construction Vehicle and Plant Management Plan (*'Phase 5 – Woodsmith Mine Construction Vehicle and Plant Management Plan – NYMPNPA – 92: 40-RHD-WS-70-CI-PL-0009'*) under NYM/2018/0349/CVC. The information contained within these reports supersede that which was submitted within NYM/2018/0212/CVC and reflects the most up to date position with regard to recent and continuing measures to reduce the overall need for use of diesel power generation during construction of the Mine.

We trust that you now have all necessary information for the remaining planning conditions and look forward to your confirmation that Planning ref. NYM/2018/0212/CVC has been formally discharged and the Phase 4a Works can progress.

Yours sincerely

Aisling Kelly
Associate Director
