Attention Mrs Wendy Strangeway

Dear Mrs Strangeway

I have sent you existing and proposed plans of both elevations as requested.

I'm not sure if it's relevant but at the front and to the left of the house (road side) there is a 3 to 4 Metre high hedge of trees running the length of the garden that obscures the conservatory.

The garage section on the right is half the house width, is stepped back and has a drive, a car and a half length, in front. It's not such a block of a house as my drawing suggests.

Regards
Richard Perry
