To Whom It May Concern,

I write in support of the above planning application. Gibbon Brothers is a well established, local company, employing many people from the area. They are a reliable business and I have traded with them for over 15 years. I am aware that suitable business premises are difficult to find, as I have also struggled to find something in recent months. The current building works at the industrial estate are forcing businesses to look elsewhere. Forcing the company to find alternative (non-existent) premises would no doubt impact on the business' ability to continue trading, resulting in employees being made redundant. They are making use of a building that would otherwise fall into disrepair and there are other buildings nearby being used in similar circumstances.

I hope you will look at the application favourably.

Yours Faithfully
