F.T.A.O. Hilary Saunders Re Application No. NYM/2018/0364/TN

A more unsuitable site for a mast of any size could not have been thought of. Right at the side of the newly planted area that NYMNPA have just completed with the idea of making the approach to the village more attractive.

What a waste of time, effort and money.

Again SBC thinks of nobody but it's own interests, all proceeds to SBC.
