Dear Sir I understand that a planning application has been submitted for a change of use for a building at High Normanby.

I would like to support this application as what was a derelict site is now tidy and well cared for. I believe the company is the Gibbon brothers, although I do not know them they have certainly changed the appearance of what was a rusty building which was ready to collapse. I pass the site several times a week and I have never seen their vehicles causing any problem with the access to the main road. It is a pity they cannot change the appearance of the other building adjacent to it which is another eyesore. I understand that they employ several men and apprentices so I feel that this business should be allowed to stay.

Yours sincerely
