FAO - Miss Helen Webster (NYMNPA Planning Dept)

Miss Webster,

Further to my e-mail on 22<sup>nd</sup> June – please find attached our revised drawings.

These show the revisions to accommodate the points as your letter of 21<sup>st</sup> June, copy attached.

My apologies for the delay in getting these to you.

There was the need to involve Building Control, in terms of what would comply with Building Regulations, to reduce the size of the landing areas internally.

We would be grateful if these drawings can be accepted as revisions to our earlier submission. We would also be grateful if you can confirm that the application can now be progressed - & when we could expect your Planning Decision.

I look forward to hearing from you.

Many thanks

Tim
