Hi Andrew regarding the planning application at the barn i would like to point out that the siteplan outline at the barn at Manor Farm that is shown in the planning application is incorrect. Gibbon brothers have no access onto manor Farm and in fact do not own any of the roadside access. All roadside access belongs to manor Farm and I am at a loss how proposals to upgrade the access have been put forward to highways without my permission. I would not allow any changes to my land by someone else! I can forward the tp1 sale contract document which clearly states that Christopher. Gibbon has an easement over manor Farm road frontage only onto his own land. It also states he is not to park or obstruct or cause nuisance to manor Farm at all. Thank you for you attention with this matter

Kind regards robert
